About Us.....

Bassetlaw Hospice provides specialist palliative care and support for the local community. It exists to enable patients diagnosed with cancer or a progressive long term condition to achieve the best quality of life.

How you can help.....

Every year the Charity need to raise a minimum of £250,000. We only fund raise in Bassetlaw, relying on the generosity of the local community.

Throughout the year the Charity arrange a programme of fund raising events, details of which are available via the web site or our newsletter, or from the Appeal Office.

Many local individuals, organisations or businesses organise events to support the Charity for which we are very grateful. If you would like to organise an event, we would be very happy to talk to you giving advice and practical support to help make it a real success!
